

Guiding Students and Institutions to the Future

CROSS SECTOR DATA SYSTEMS AND VISUALIZATIONS
WORKGROUP

November 13, 2018
Baltimore, MD

● PAS VISION

- For schools, districts, and communities to enable all youth, regardless of need, circumstances, place of residence, and prior experience to obtain the competencies necessary to persist in and complete secondary schooling prepared for postsecondary success and a postsecondary pathway that leads to a family-supporting wage and adult success.

● AGENDA

- 9:00 a.m. Welcome
Joanna H. Fox, Everyone Graduates Center,
Johns Hopkins University
- 9:10 a.m. Who is in the room?
- 9:45 a.m. Consideration of the PAS Navigation System
from the perspective of the Cross-Sector Data
Workgroup
- 10:15 a.m. Break
- 10:30 a.m. How-to's: Purpose and characteristics
- 11:35 a.m. Report out; group discussion and synthesis

● AGENDA (cont'd)

- 12:00 p.m. Networking Lunch
- 12:45 p.m. Consideration of PAS Collaboration, in small,
from the Cross-Sector Data Workgroup
perspective
- 1:30 p.m. Break
- 1:45 p.m. Report out; group discussion
- 2:00 p.m. PAS Pilots Purpose—“beads on a chain”—
Roundtable
- 2:45 p.m. Synthesis, closure and next steps
- 3:15 p.m. Shuttle departs for BWI airport and Penn
Station train (advance sign-up, please)

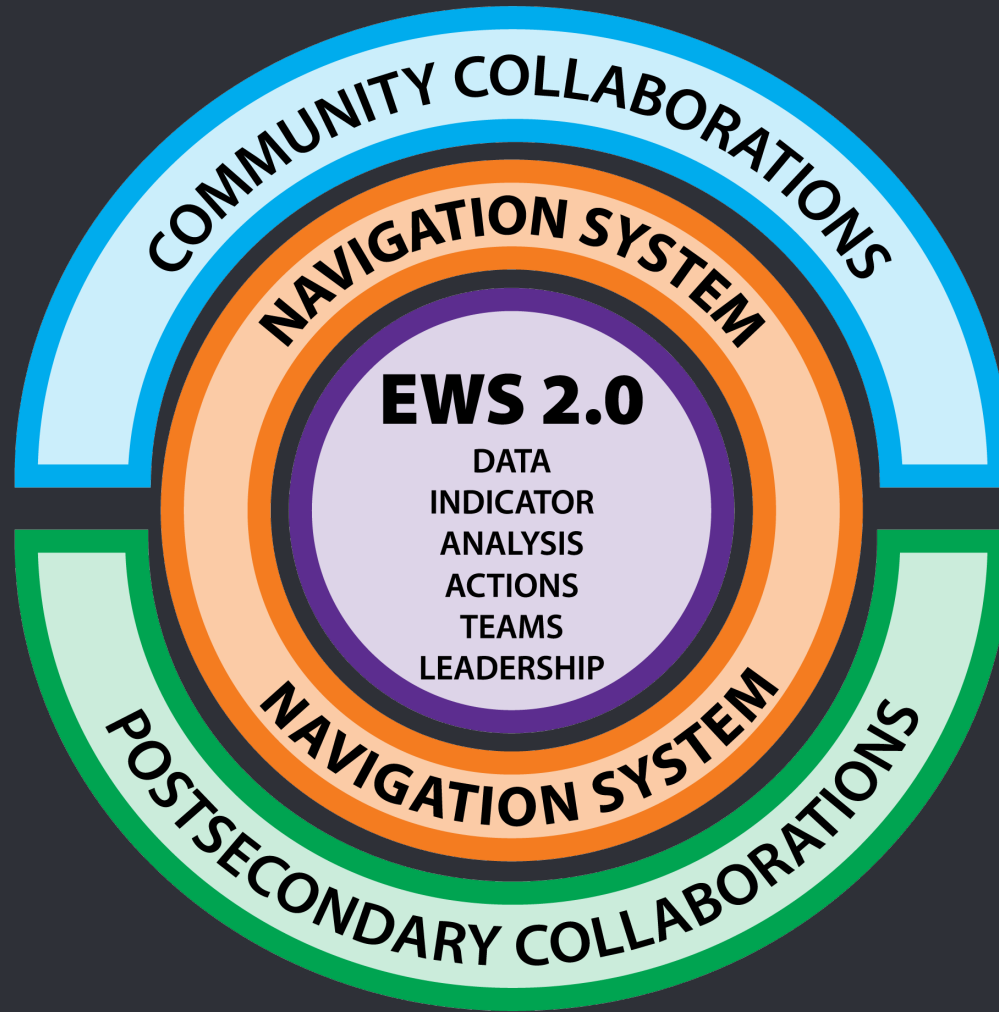

WELCOME

JOANNA H. FOX
EVERYONE GRADUATES CENTER,
JOHNS HOPKINS UNIVERSITY SCHOOL OF EDUCATION

● FOCUS OF THIS WORKGROUP

- This group will consider the architecture and use of cross-sector data systems that link K-12, higher education, and the workforce and local/regional labor markets. Optimally, the resulting data can inform districts and secondary schools on the progress, persistence, and success of their graduates over various periods and in various institutions, organizations, or careers, promoting better guidance and preparation within the school environment. It can also inform organizational restructuring to support students and educate them about the nature and variety of pathways to adult success in their community. To be useful, the data must be easy to access, organize, and present.

● PAS FRAMEWORK

● MEETING OVERVIEW, EXPECTED OUTCOMES, HOUSEKEEPING

● WHO IS IN THE ROOM?

- Introduce yourself briefly – name, role, organization
- Update from participants since last convening
- Burning question(s)

CONSIDERATION OF THE PAS NAVIGATION SYSTEM FROM THE PERSPECTIVE OF THE CROSS-SECTOR DATA WORKGROUP

- In your view, what indicators/actions/outcomes can be measured and tracked within the proposed navigation system? Identify and list them.
- In your view, what indicators/actions/outcomes should be measured and tracked? How would you measure? How frequently?
- For each topic you have identified, who would need to be involved in order to do this? (In what role and from which sector?)

● CONSIDERATION OF THE PAS NAVIGATION SYSTEM FROM THE PERSPECTIVE OF THE CROSS-SECTOR DATA WORKGROUP (CONT'D)

- Do the topics you have chosen meet the criteria for Indicators? (yes, no, maybe; by topic)
- What would you and your colleagues learn from this work?
- Propose a measurement system.

BREAK

10:15 a.m.

● HOW-TO'S: PURPOSE AND CHARACTERISTICS

- Review one “How-To” related to data and the list of proposed data-related “How-to’s”
- What are the strengths and weaknesses of this particular “How-to”? If you would modify it, how?
- What are the strengths and weaknesses of the “How To” approach for teaching PAS to newcomers?
- What additional “How to’s” should be developed?

REPORT OUT

GROUP DISCUSSION AND SYNTHESIS

NETWORKING LUNCH

12:00 p.m.

CONSIDERATION OF PAS COLLABORATION, IN SMALL GROUPS, FROM THE CROSS-SECTOR DATA WORKGROUP PERSPECTIVE

- What collaborations are most vital for accomplishing the purposes of this workgroup, and as related to the Navigation System?
- Which collaborations will be easier, and which more difficult, to establish?
- •What opportunities and hurdles do you anticipate?
- With which collaborators do you recommend starting?

BREAK

1:30 p.m.

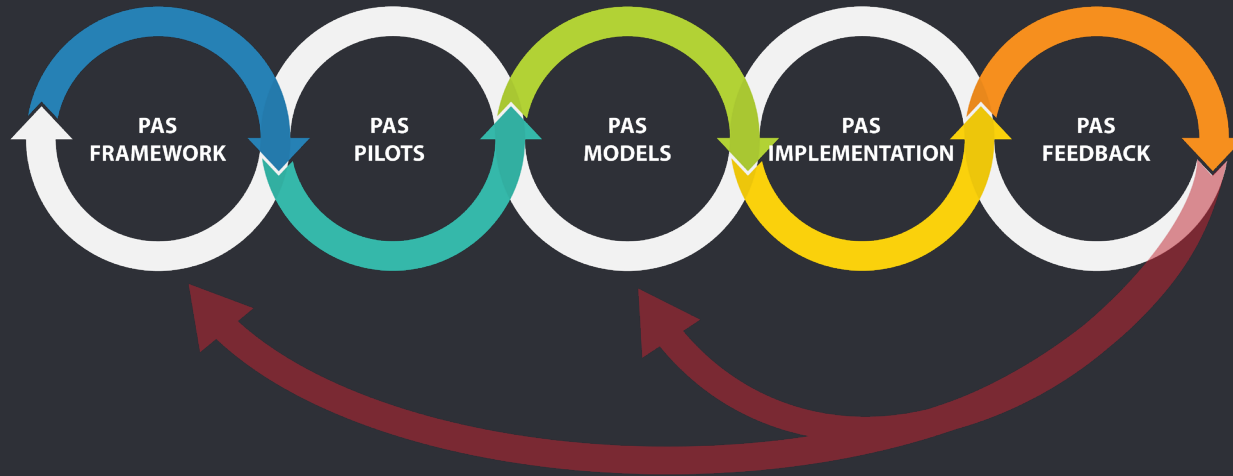

REPORT OUT

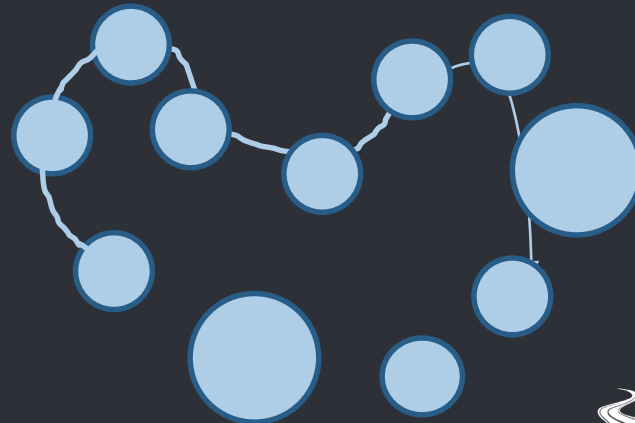

GROUP DISCUSSION

PAS PILOTS PURPOSE “BEADS ON A CHAIN”—ROUNDTABLE

PAS WORK FLOW - THOUGHT FLOW

“Beads on a chain”:

PAS PILOTS PURPOSE “BEADS ON A CHAIN”—ROUNDTABLE

- What are the suggestions for pilots related to Data and Navigation System?
- What are the suggestions for pilots related to Data and Collaborations?
- Examples of pilots that those present have started or are considering

SYNTHESIS, CLOSURE, NEXT STEPS

● MARK YOUR CALENDARS

- Virtual Workgroups, **1:30 – 3:00 p.m.:**
 - **Jan. 29, 2019:** Data
 - **Jan. 31, 2019:** Postsecondary Navigation
 - **Feb. 5, 2019:** Collaborations
- **Mid-March 2019** (TBD)
 - In-person or Virtual Workgroup
- **May 1-2, 2019**
 - Spring In-Person Convening
Hyatt Regency, Baltimore Inner Harbor

SHUTTLE DEPARTS FOR BWI AIRPORT & PENN STATION

3:15 p.m.
