Data are based on At-Risk Scores generated by the EVSC Early Warning System Reports. Percentages represent the number of students in the Red category (At-Risk for not graduating) divided by the number of students who received an At-Risk Score. (Students without complete information to calculate a score are not included in the percentages.) Additionally, student counts are for students who were in a building any time throughout the year. Their data used to calculate the At-Risk score is from end-of-year.

Overall provides the percent of the students in a level who were scored proficient in the listed subject and test. Columns 6-20 provide the percent of the subgroup of the population described by the intersection of the row and column who met who were scored as proficient in the listed subject and test. The data includes all students who were administered PSAT 8/9, PSAT, or SAT at the listed level.

*High School is the "Similar School" for K-8 School. Ethnicity Categories: Am Ind = American Indian, Hisp = Hispanic, Multi = Multi-Racial, Pac Is = Native Hawaiian or Pacific Islander

to favorably by students in the listed level. A favorable response is one scored as a 4 or 5 to favorably by students belonging to the subgroup described by the intersection of the row and column who met who were scored as proficient in the listed subject and test.

Asian or Pacific Islander
